

GlamEdge Studio Engine

Next-Generation All-in-One SaaS Management & Portfolio Showcase Platform for Salons & Studios

DOCUMENT TYPE

Enterprise Business Proposal

TARGET AUDIENCE

Salon Owners, Investors & Stakeholders

DEPLOYMENT MODEL

Multi-Tenant Cloud SaaS (Web + Mobile)

1. EXECUTIVE SUMMARY

The beauty, grooming, and personal care industry is rapidly expanding, yet micro, small, and medium salon owners and independent stylists continue to rely on manual ledger books, disorganized WhatsApp messaging, and unverified social media marketing. **GlamEdge Studio Engine** is a specialized, multi-tenant SaaS platform engineered to bridge this gap.

By uniting daily business operations (income/expense logging, instant digital billing) with appointment availability management and a specialized visual portfolio feed, GlamEdge empowers salon operators to streamline back-office tasks while simultaneously acquiring new high-intent clients.

Core Value Proposition: A friction-free, zero-hardware digital workspace that runs 100% online—allowing salon owners to register, configure service menus, track finances, accept bookings, and showcase work within minutes.

2. CORE CATEGORIES & NICHE SEGMENTATION

To deliver a personalized client experience, the platform establishes three specialized core service verticals:

LADIES

Bridal & Aesthetics

Focuses heavily on high-ticket services: Bridal Dressing, Saree Draping, Hair Coloring, Facials, and Nail Art. Features extended time-slot scheduling and visual trial lookbooks.

GENTS

Grooming & Barbering

Tailored for quick-turnaround haircuts, beard sculpting, hair treatments, and groom packages. Optimized for rapid walk-in queue management and quick billing.

KIDS

Gentle & Creative Styling

Designed for child-friendly styling, first haircut certificates, and event styling. Includes parent profile linking and specialized calm-environment booking slots.

3. COMPREHENSIVE FEATURE MATRIX

3.1. Financial Operations & Instant Digital Billing

- **Daily Income & Expense Ledger:** Simple touch-optimized tracking for daily cash inflows, card payments, product sales, and operational expenses (utility bills, staff payouts, inventory refills).
- **Instant Digital Bill Generation:** Creates professional PDF e-receipts sent directly to clients via SMS or WhatsApp with integrated LankaQR / Online Payment links.
- **End-of-Day Financial Reconciliation:** Automated daily summary reports showing net profit, cash drawer status, and staff sales commissions.

3.2. Appointment Scheduling & Staff Availability Engine

- **Real-Time Availability Grid:** Interactive booking calendar matching client preferences with available staff chairs/booths.
- **Automated Reminders & Anti-No-Show Rules:** Instant SMS/WhatsApp booking confirmations with automated reminders 2 hours prior to appointment time.
- **Commission & Staff Shift Management:** Track individual employee service history, tips, and automated commission splitting.

3.3. Showcase Feed & Client Social Proof Engine

- **Stylist Portfolio Showcase:** Salons and individual stylists upload high-resolution photos/videos of their work tagged by category (e.g., #BridalDressing, #BeardSculpting).
- **Public Engagement (Likes & Comments):** General users can browse the discovery feed, like posts, and comment to build organic hype.
- **Verified Client Rating & Review System:** To eliminate fake feedback, **only clients with a completed, billed appointment** can leave official ratings and star reviews. This is crucial for high-stakes services like bridal dressing.

4. SYSTEM ARCHITECTURE & 100% ONLINE ONBOARDING

GlamEdge is built on a modern, event-driven multi-tenant cloud architecture designed for zero physical intervention during customer acquisition and setup.

Onboarding Stage	Automated System Workflow	User Experience
1. Self-Registration	Mobile OTP authentication & tenant isolation setup in Cloud Database.	Owner downloads app/visits web, enters mobile number, and verifies via OTP.
2. Studio Setup	Auto-generates custom store URL ('glamedge.app/salon-name') and QR poster.	Selects categories (Ladies/Gents/Kids), adds staff names, and sets operating hours.
3. Service Menu	Pre-populated template loading (default service names & pricing presets).	Taps to enable services (e.g., Haircut - LKR 1,500) or edits prices in seconds.
4. Go-Live	Instant activation of Booking Engine, Financial Ledger, and Social Feed.	Downloads PDF QR Poster for counter & posts link on social media.

5. SAAS BUSINESS MODEL & REVENUE STREAMS

1. Monthly SaaS Subscriptions • Starter (Solo Stylist): LKR 1,500/mo (Basic Ledger + Billing + Portfolio) • Pro Studio (3-5 Chairs): LKR 3,500/mo (Full Booking Engine + Advanced Financial Analytics) • Enterprise / Chain: LKR 7,500/mo (Multi-branch + Payroll + API Access)	2. Micro-Transactions & Add-Ons • Payment Gateway Convenience Fee: 1.5% per online advance booking payment. • SMS / WhatsApp Credit Packages: LKR 1.00 per automated client reminder. • Featured Portfolio Promotion: Featured listing fee for salons aiming for top-tier visibility in Bridal categories.
--	---

6. GO-TO-MARKET & PUBLISHING STRATEGY

1. **Digital-First Product-Led Growth (PLG):** Meta (Instagram/Facebook) and TikTok video campaign targeting salon owners showing a 30-second clip of instant WhatsApp billing and booking.
2. **Free Trial Frictionless Onboarding:** Offer a 14-day full feature free trial without requiring credit card details.
3. **Barber & Bridal Association Partnerships:** Strategic outreach to regional salon associations and beautician training academies to offer GlamEdge as the standard operational software upon graduation.
